

This document contains release notes for the Release 3.16 of FOIAonline, for release after COB on May 19, 2020. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

New Enhancements

- Added an Advanced Search criteria option for Perfected.
- Added a configurable option to allow users to capture page count metadata for each release of responsive records. When configured users can:
 - Enter Number of Pages Released in Full, Number of Pages Withheld in Full, Number of Pages Released in Part and Number of Pages Referred on the Interim Release, Partial Determination and Begin Close Out pages
 - Edit the page count fields for each release on the Records tab
 - Generate a report of the total Number of Pages Released in Full, Number of Pages Withheld in Full, Number of Pages Released in Part and Number of Pages Referred by agency and release date

Bug Fixes

- Fixed issue where users could not edit the “Assigned to Individual” field within the Advanced Search.
- Fixed issue where users could not delete uploaded files with special characters in the name.
- Fixed issue where users could not create an agency acronym on the Agency Administration page if the acronym existed at another agency.

Other Updates

- Updated Custom Field logic so all agencies can create new custom fields in the Agency Administration section.
